Technological Forecasting and Social Change
An International Journal

A 10-Volume Index of Authors, Subjects, and Book Reviews

Volume 31, Number 1—Volume 40, Number 4
1987–1991

Editor in Chief, Harold A. Linstone

NORTH-HOLLAND

TECHNOLOGICAL FORECASTING AND SOCIAL CHANGE 40, 399–402 (1991)

Author Index—Volumes 31 to 40

Adelson, M., 34:197, 36:27
Afuah, A.N.,40:315
Agmon, T., 33:109
Al-Ali, S., 40:183
Amara, R., 36:43
Anderson, W.T., 31:107
Arabie, P., 32:245
Arai, T., 35:133
Archibugi, D., 34:253
Ardekani, S.A., 38:333
Ascher, W., 36:137
Assa, I., 33:251
Astakhov, A., 38:223
Ausubel, J.H., 38:333, 39:2, 39:11
Ayres, R.U., 33:189, 35:95, 36:49, 37:1, 37:111, 39:7, 39:145

Baines, J.T., 32:295, 36:425
Balzhiser, R.E., 38:349
Benarie, M., 33:149
Bezdek, R.H., 38:375
Bhargava, S.C., 35:319, 38:323
Bodger, P.S., 31:27, 36:425
Bolger, F., 39:235
Bommer, M.R.W., 39:377
Bonanzinga, P., 39:363
Bowonder, B., 32:169, 32:183
Boyce, T.A., 40:73
Brooks, H., 39:4, 39:5, 39:103
Bush, W.R., 37:235

Cabe, R., 39:265
Cameron, H.M., 32:147
Campbell-Hunt, D.M., 37:371
Carroll, J.D., 32:245
Casti, J.L., 31:305
Cevidalli, G., 35:51
Changgeng, L., 38:293
Chen, K., 31:19, 38:363
Chiang, J.-T., 35:339, 37:267, 39:391
Cho, Y.Y., 40:273
Choi, H.S., 31:347, 33:23, 33:279, 36:209
Coate, M.B., 31:131
Coates, J.F., 34:199, 35:295, 35:387, 36:15, 36:445, 37:305, 37:415, 37:417, 38:101, 38:201, 38:307, 38:409, 39:327, 39:331, 39:411, 40:87, 40:97, 40:303, 40:389
Cohn, S., 40:103
Covello, V.T., 37:159
Cundiff, W.E., 34:189
Cunningham, J.B., 40:355

Davelaar, E.-J., 37:181
Davidsen, P., 33:219
Davis, C.H., 40:151
Davis, H.C., 32:361
Davis, J.H., 34:369
de Gortari, A., 37:383

TECHNOLOGICAL FORECASTING AND SOCIAL CHANGE 40, 403–425 (1991)

Subject Index—Volumes 31 to 40

Acid rain policy
  policy-cost index approach to modeling change in input–output coefficients 33:13
After-tax pay
  of corporate chief executive officers in USA, 39:321
Agricultural extension
  and human capital variables and discipline in rates and patterns of adoption and use of computers, 39:309
Agricultural innovation adoption
  drip irrigation of cotton in Israel, 35:375
Agricultural research
  and Green revolution, 40:235
Agricultural research system
  knowledge production measurement, 40:249
Aircraft cockpit, military
  industry technological change, 33:55
Aids for disabled
  social uses of subsidized technology, 31:335
Alberta
  200-year present, 33:365
Allocation mentality in Eastern Europe, 297
America/American. *See also* Issues Papers, Special Issues, United States
American hemisphere technology
  and world economy, 35:351
Analytic hierarchy process
  for choice of technologies, 38:151
APL functions defined
  interactive software for capture, management, and analysis of data in Delphi inquiries, 34:189
Applied mechanics literature
  measures and mismeasures of, 31:323
Architecture, supercomputer, 40:315
Artificial-intelligence-based devices
  evolution, 34:115
Artificial intelligence systems
  and paradigm shift, 39:349
Assembly automation forecast
  technological progress in robotics in automobile industry, 35:133
Automated automotive parts
  scatalog, 34:351
Automation, computer-based
  and job displacements in Canada, 35:299
Automation, programmable, 39:103
Automobile industry
  interfirm cooperation, 39:81
  forecast of assembly automation technological progress in robotics, 35:133
Automobile manufacturing, Japanese
  in American setting, 35:29
Automotive parts catalog
  automated, 34:351

Backcasting and unlearning
  rethinking questions about future, 33:339
Bank, developing country
  information systems strategy formation, 38:393
Banking in the Netherlands
  diffusion of process technology, 39:201
Behavior, social
  and technologies, rat-race dynamics in diffusion of, 39:11
Belief network
  for forecasting within electricity sector, 38:135
Berlin wall, 40:289
Beverage container industry in USA
  material substitution, 39:127
Bhopal accident
  risk analysis and multiple perspectives, 32:169, 32:183
Bifurcations in spatial dynamics, 39:45
Biology of genius
  brain training for information age, 33:299
Bounded rationality
  circumvention in technology programs, 39:391
Brain training
  for information age, 33:299
Bribery in Eastern Europe, 40:297
Business environments
  forecasting trend-impact and cross-impact scenarios, 31:219

California
  1980 medfly eradication program, 40:1
Canada. *See also* Special Issues
  Alberta and 200-year present, 33:365
  computer-based automation and job displacements, 35:299
  computers
    automation and job displacements, 35:299
    in strategic planning and education in Ontario, 33:355
  "Futurism" and "Prospective" at crossroads toward synthesis? 33:339
  manufacturing and computer-based technologies, 40:371
  Ontario perspective of computers in strategic planning and education, 33:355
  "Prospective" and "Futurism" at crossroads toward synthesis? 33:339
  socioeconomic modeling evolution, 33:311
  synthesis of "Futurism" and "Prospective"? 33:339
Capital variables, human
  and adoption and use of computers in agricultural extension, 31:49
Carbon dioxide

what to do about it, 38:265
Car populations
dynamic modeling: Part I, 34:81; Part II, 34:135
Catch-up effect
in diffusion of pervasive systems, 39:181
Causal loop analysis
and social aftereffects in Eastern Europe, 40:297
Causality
KSIM models, 36:363
system dynamics, 36:363
Cellular mobile telephones, 34:369
Census Bureau, US
gap between rich and poor estimated, 39:321
Centers, engineering research
industrial research versus technological needs of US industry, 39:397
Ceteris paribus qualification
for theoretical work, 39:265
Chain saws. *See* Special Issues
Chambers Science and Technology Dictionary, 36:445
Chaos and fractals
new tools for technological and social forecasting, 34:1, 38:323
Chaotic behavior in spatial dynamics, 39:45
Chaotic sequence
produced by nonlinear recursive equation, 39:337
Chaotic series forecasting
using regression, 39:337
Chaotic world
managing paradox in, 38:117
China
applications of Delphi method, 38:293
effects of information technology on information economy, 31:373
CIM introduction
socioeconomic aspects, 35:261
CIM technologies
electronics and information technology impact on future trends and applications, 35:231
Civilian and military criteria
theory and forecasting of technological innovations, 31:239
Civilian technologies
effects of military technology, 31:239
Coal gas technology in Denmark
diffusion, 1850–1920, 38:37
Coal-mining industry in USSR
technology diffusion, 38:223
Coconstruction, customer
process promotion, 40:261
product innovation life cycle, 40:261
product/service markets, 40:261
risk sharing, 40:261
Cognitive processes
technology management and transfer, 38:81
Cognizers
neural networks and machines that think, 37:95
Collective evolutionary process
adoption and diffusion of technology as, 39:67
in R&D, 39:67
Collective invention
as concept of innovation, 39:67
Collectivism trends in USA, 39:323
Commerce in the systems age. *See* Issues Papers
Common Market of Six
jurisdictional integration, 39:35
Communications
computer-mediated, 36:107
Companies, crazy
diffusion of technologies and social behavior, 39:11
Competition. *See also* Issues Papers
in diffusion, 39:145
and structural change in US industry: semiconductors, 37:85
Complementarity in diffusion, 39:145
Computer-aided sales (CAS)
industrial sales force rebirth, 31:5
Computer-based automation
potential job displacements in Canada, 35:299
Computer-based technology
Canadian manufacturing, 40:371
training and application, 40:371
Computer industry innovation, 33:267
Computer-integrated manufacturing systems
generation dynamics, 31:19
Computer-mediated communications, 36:107
Computer technology
agricultural extension in Israel, 39:309
paradigm shift, 39:349
Computers. *See also* Minisupercomputers, Supercomputers
in agricultural extension, 39:309
diffusion, 39:309
financial industry, 31:143
and human capital variables in agricultural extension, 39:309
massively parallel, versus supercomputers, 40:315
Ontario perspective, 33:355
in strategic planning and education in Ontario, 33:355
societal effects in 22nd century, 36:217
Conservation of energy, national policy for
formulation and Delphi method, 31:257
Contingent and primary products by integrated firms
pricing, diffusion, and public policy implications, 39:291
Control
concentration versus diffusion, 39:322
Corporate chief executive officers in USA
after-tax pay, 39:321
Corporate and institutional ownership
descriptive analysis of 1965–1984 period, 35:13
R&D investment, 37:59
